Archive: This message is being viewed in an archive.

Hi, Ken:

We are looking to sample the following wells:

- 4916 and 4916A, which may also be CALMAT 3 and 2, near Bradley and Gregg Pit/Benz Dump
- 4909F. 4909C and 4899, all of which are on Hewitt Pit.

Please let me know if my understanding is incorrect, and your client does not own these wells. If so, and you know who does, would you please let me know who?

Thanks.

Regards, Kelly Manheimer EPA, Superfund SFD-7-1 415-972-3290

"Ehrlich, Kenneth A." Thanks. Yes, please forward info on the wells... 11/22/2010 03:43:41 PM

Hi, Ken:

From my email of 11/16:

In order for us to accomplish this work on the expedited timeline we need, I am requesting the following support from you:

- We would like to make sure that our drilling subcontractor has complete access the monitor well(s). If anything needs to be moved you should move it before we arrive.
- We would like to know if you have observed any difficulties when sampling any of your monitoring wells recently (if you have sampled any), or if you have observed any conditions that may make it difficult for us to sample.
- Sampling would likely be during the weeks of 6 December and/or 13 December.
- We will contact you approximately 3 days prior to anticipated field date for confirmation. EPA's contractor is CH2MHILL.
- If you would like split samples, you should have your consultant there to collect them.
- We will use a portable pump and collect the purge water for transportation and disposal off of your site.

Basically, the request is for access to sample the wells, and that you ensure the wells are available to be sampled. I had originally sent out the list of wells that we would like to sample. Please let me know if you need me to re-send, and highlight the wells that we believe are owned by Vulcan/CalMat.

Thanks!

Regards, Kelly Manheimer EPA, Superfund SFD-7-1 415-972-3290

Subject: Re: Basin-wide sampling event request

Hello:

If you are receiving this email, it is because you have been identified as being a current property owner, or represent a current property owner, who has received special notice for the San Fernando Valley (Area 1) Superfund site, North Hollywood Operable Unit. I sent out an email on October 26, 2010 (text below) which requested that you participate in a sampling event that we are coordinating for the first 2 weeks of December. As of the time of this email, I have not yet received a response from you.

The purpose of this email, therefore, is to let you know that EPA will be conducting the sampling on your property during the beginning of December, of the wells identified in my previous email, and we will be following up with a bill to you for that effort. In order for us to accomplish this work on the expedited timeline we need, I am requesting the following support from you:

- We would like to make sure that our drilling subcontractor has complete access the monitor well(s). If anything needs to be moved you should move it before we arrive.
- We would like to know if you have observed any difficulties when sampling any of your monitoring wells recently (if you have sampled any), or if you have observed any conditions that may make it difficult for us to sample.
- Sampling would likely be during the weeks of 6 December and/or 13 December.
- We will contact you approximately 3 days prior to anticipated field date for confirmation. EPA's contractor is CH2MHILL.
- If you would like split samples, you should have your consultant there to collect them.
- We will use a portable pump and collect the purge water for transportation and disposal off of your site.

I will be calling you in the next couple of days to confirm receipt of this email, and to confirm your acceptance of the requests that I have made above. Please feel free to call me in advance, if you wish, or if you have any questions.

Regards, Kelly Manheimer EPA, Superfund SFD-7-1

Hello all:

As I was putting together the SAP/QAPP documents, I realized that it would be easier (and save time/resources/money/etc) to simply load all the documents onto an ftp site, and let you download them as you wish.

So, all the pertinent plans are loaded here:

ftp://ftp.ch2m.com/SFVpublic/SFV Basinwide/SAP QAPP Docs

Username = anyuser2

Password = fernando

The updated matrix of wells to be sampled is attached to this email. In addition, the

final letter requesting your participation is also attached (I will not be sending out a hard copy letter).

Please let me know if you have any questions. Thank you, in advance, for your support of this very important task.

Regards, Kelly Manheimer EPA, Superfund SFD-7-1 415-972-3290

Su Basin-wide sampling event request

bje

ct:

Hello:

Attached please find a draft letter, requesting a basin-wide sampling event to be conducted the first 2 weeks of December. I will be sending out a hard-copy of the letter, with the attachments, early next week, but I did not want to delay your receipt of this, since time is short. I will not be sending the letter to everyone, but only the primary contact at each facility.

I have attached a preliminary list of the wells to be sampled as well. This is subject to minor changes, but will be finalized for the hard copy letter next week.

Please let me know if you have any questions.

Take care, and have a good weekend.

Regards, Kelly Manheimer EPA, Superfund SFD-7-1 415-972-3290
